SUBJECT

4-7-82 Ltr. on Closure Plan Requirements

SUMMARY OF COMMUNICATION

I called Mr. Dow to ask if they had any questions regarding our ltr. He said they plan to have a response in the mail on 4-13 or 4-14.

I told him that we were interested in getting the closure plan revised in accordance with the latest emergency permit.

He said that from a cost standpoint they would prefer to leave sludge in the lagoon for 2 mos. to dry out. I told him that he would have to work w/ MDNR on that & we would probably concur with their decision.

GW monitoring - they are still waiting for MDNR.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

I called Dave Doyle, AWCM, after talking w/ Mr. Dow - I advised Dave that nothing had been done on gw monitoring. Dave indicated that we plan to issue an order - gw monitoring may be irrelevant if the lagoon is emptied very soon.
